

Note:

- On every tankcorner at the bulkheads, 100 mm. st.st. welds have to be placed on the outside of the hull and on the upperside of the maindeck as shown in drawing.
- Draught marks to be made from 6 mm steel plate and welded continuous to the shellplating.
- All sharp edges to be removed.
- For full size figures, see draw. no. -159-011.
- For Plimsoll marks see draw. no. -159-002 (S.B.) and -159-003 (P.S.).
- Paintline to be indicated by means of welding beads, every 5th frame (L=100 mm).
